CCD-1 CARD A — FRONT

Copper Creek Dam: what has happened

> **THIS IS AN EXERCISE** in an invented community (the Juniper Plains Area). Every form, message and net call says so. If anything real happens, anyone says **"REAL WORLD"** on the net or in the room and the drill stops. Never call 911 for the drill.

07:50, SUNDAY 21 MARCH

- Three days of warm rain on deep snow. Copper Creek Dam has seeped since last evening; at 07:40 the seep started carrying mud.
- The sheriff orders Copper Ridge below Route 30 and the Copper Creek corridor through south Larkspur **out now**.
- The Larkspur River bottoms from Center Street to Alder Flat are **warned**: get ready to leave.
- +4 °C, light rain. Most members are getting ready for 9:00 sacrament meetings.
- Phones work for now. Nobody knows how long the dam will hold.

YOUR FIRST FIFTEEN MINUTES

1. **Your own family first.** In the order zone: leave now, by the routes the sheriff gives.
   Then go to your assignment: the EOC, your ward's gathering point, your radio.
2. **Bishops and Team Leaders:** account for members and missionaries in the zones.
   Who has left, who needs a ride, who will not leave.
3. **HAM operators:** check in on the stake net and stand by.
   The specialist recommends the PACE level (Primary, Alternate, Contingency, Emergency), the Stake President decides it, the net announces it.
4. **EOC operators:** open the Message Center, confirm the drill event and the level.
   First SITREP (situation report) as soon as you have a first assessment.

Who is in this drill and how traffic moves

EOCS (EMERGENCY OPERATIONS CENTERS) AND PARTNERS

EOC	LEVEL	PEOPLE	WINLINK
Larkspur Stake	Stake EOC	always	SIM-LKS
Copper Ridge Stake	Stake EOC	optional	SIM-CRS
Alder Flat Stake	Stake EOC	optional	SIM-AFS
Larkspur East Stake	Stake EOC	optional	set at the drill
Larkspur West Stake	Stake EOC	optional	set at the drill
Juniper Springs Stake	Stake EOC	optional	set at the drill
Kestrel Stake	Stake EOC	optional	set at the drill
Saddleback Stake	Stake EOC	optional	set at the drill
Council / Area EOC: Juniper Springs Stake Center	Council / Area EOC	optional	SIM-JPA
Larkspur City EOC	Partner agency (ICS forms only)		SIM-LKCITY
Copper Ridge City EOC	Partner agency (ICS forms only)		SIM-CRCITY

> The **Larkspur City EOC** does not run our system. It asks for Helping Hands crews with **ICS 213RR** (Incident Command System) Resource Requests on Winlink's standard form; the stake answers with an **ICS 213** General Message. Never send it Church forms.

THE PACE PLAN

LEVEL	PATH	IN THIS DRILL
P	Cellular	Text or email the form file from the phone
A	Any internet anywhere	Home, shelter, business, meetinghouse or Starlink Wi-Fi
C	Radio	Winlink by VARA FM to the stake EOC, then VARA HF (VARA: the radio modem Winlink uses); voice on FRS/GMRS (Family Radio Service / General Mobile Radio Service) and the stake net
E	Runner	Paper form carried to the EOC

- Step down after **two failed attempts in 15 minutes**; step back up only after a round-trip test.
- Life safety first: injured, missing and missionaries go at the top of every report.
- Training messages are numbered **CCD-1 NN** in drill-clock order.
- At the end: the hot wash. Bring what went wrong; that is the point.
